

# HARVARD SEAS PHOTONICS CLUB

## PRESENTS

### Professionals Tell All: Career Trajectories and Advice

### Featuring Dr. Daryoosh Vakhshoori

Founder and CEO of Pendar Technologies

**Date and Time:** Tuesday, April 3<sup>rd</sup>, 4:00-5:30pm

**Location:** LISE 303

(Refreshments will be served prior to talk)

Daryoosh Vakhshoori, Ph.D. is the founder and CEO of Pendar Technologies, which seeks to develop and commercialize novel spectroscopy techniques for medical and other applications. It was formed from the merger of Pendar Medical and Eos Photonics, a company that spun out of the laboratory of Prof. Federico Capasso to commercialize Quantum Cascade Laser (QCL) technology.

Dr. Vakhshoori is a photonics and optoelectronics industry veteran, having founded three companies in addition to time spent at AT&T Bell Laboratories. He will share his industrial perspective in this talk - come with questions!
